

3rd International Conference on Electrical, Communication and Computer Engineering (ICECCE 2021)

CALL FOR PAPERS

JUNE 12 - 13, 2021

IMPORTANT DATES

KUALA LUMPUR, MALAYSIA

Paper Submission: 1 January 2021

Acceptance Notification: 1 March 2021

Early Bird Registration: 1 April 2021

Camera-ready Submission: 1 May 2021

ABOUT

Multimedia University Malaysia, University of Buner, Pakistan, International Islamic University, Pakistan and Aksaray University, Turkey are going to organize "Third International Conference on Electrical, Communication and Computer Engineering (ICECCE 2021)" in collaboration with IEEE Malaysia Chapter on 12-13 June, 2021.

This two-day international conference will be held at the historic, beautiful and mega city of Kuala Lumpur, Malaysia. Experts will be invited to deliver their keynote talks, contributory lectures, and poster presentations related to the conference topics.

This conference will offer opportunity for engineers, scientists, professionals, policymakers, investors, and other parties to review recent developments in the areas related to Electrical, Electronics and Computer and Communication Engineering and Technologies. The conference covers many topics under different fields such as power and energy, smart grids, industrial process control, intelligent bio-medical diagnostic systems, satellite and wireless communications, signal and image processing, embedded systems, networks & security, internet of things & big data and software engineering & agile development etc. The outcome of the lectures, expert discussions and presentations will help our societies in Asia and particularly in Malaysia and will open new avenues in developing solutions to future smart systems and technologies. All accepted papers will be submitted to IEEE for publication at IEEE Xplore Digital Library (CONDITIONAL TO IEEE APPROVAL).

1st and 2nd ICECCE were technically co-sponsored and indexed by IEEE. The Proceedings of these conferences have been published at IEEE Xplore Digital Library.

Scope and Interests

Areas of interest include, but are not limited to:

- Power Generation Systems
- Modeling and Simulation of Power Systems
- Power System Management Technologies
- Renewable Energy Systems, Technology & Management
- Applications of Power Electronics
- Electrical Machines and Adjustable Speed Drives
- High Voltage Engineering and Insulation Technology
- Signal and Image Processing
- Neural Networks and Intelligent Systems
- VLSI and MEMS Design
- Intelligent Industrial Process Control
- Intelligent Robotics and Control
- Satellite and Wireless Communications
- Antennas and Propagation
- Next Generation Mobile Communications
- Optical Communications and Photonics
- RF and Microwave Circuits and Devices

- Wireless/Radio Access Technologies
- Massive MIMO Communication Systems
- Applications of Compressive Sensing Theory
- Cognitive Radar Systems
- Networks and Security
- High Performance Networks and Protocols
- Network Reliability and QoS
- Internet of Things and Big Data
- Software Engineering and Agile Development
- Multimedia and Web Services Agents
- Cloud Computing
- Embedded Systems
- Virtual and Augmented Realities
- Human Computer Interaction
- Context awareness
- Ubiquitous Computing
- Global Software Engineering

Authors can submit papers at: www.icecce.com

VENUE: KUALA LUMPUR, MALAYSIA
